¹ Customers must subscribe to a bundled service package including, at a minimum, local exchange and long distance services to qualify for the discounted charge. In addition, Customer must agree to keep the bundled service at least six months. In the event the bundled service is terminated prior to six months, a \$25 termination fee will be applied to Customer's account or final bill.

² Customer may elect to pay Line Connection - New Connection or Line Connection - Conversion charges in three equal monthly installments, without interest. Deferred charges will be payable monthly during the deferral period. All deferred amounts must be paid in full if Customer disconnects service prior to the expiration of the deferred period.

Calling Card Service

Postpaid Calling Card Service - Rates and Charges

Activation Fee

A one time fee applies per calling card issued to Company Customer.
Activation Fee = **\$.99** one time charge

Calling Card Surcharge

A surcharge for use of the Calling Card Service applies to each call made using Company calling card.
Calling Card Surcharge = **\$.50** per call placed

Payphone Surcharge

A surcharge applies to any Company Calling Card Service call made from a payphone. This surcharge is in addition to the calling card surcharge.
Payphone Surcharge = **\$.35** per call placed from a payphone

Directory Assistance and Operator Services Charges

Directory Assistance and Operator Services charges will be applied to the calling card billing where such services are utilized by Customer. Billing will be at the rates and under the conditions discussed elsewhere in Tariff No. 2 for Directory Assistance Service and Operator Services.

Per Minute Charges using Company Calling Card Service

Per minute charges for using the Calling Card Service are billed at the same rate Customer has selected for the Toll Service provided to Customer's residence, shown in the Tariff as Company (1+) Dialing Domestic Calling plan rates. These per minute rates are described elsewhere in Tariff No. 2, or in the Interstate and International Tariffs on file with the FCC, and depend upon the various package options selected by Customer.

SECTION 2 - INTEREXCHANGE RATES AND CHARGES (Continued)

Prepaid Calling Card Service

Description of Service

Calls are real-time rated during call progression. The total price of each call, including applicable taxes, is calculated on the basis of usage and is deducted from the available account balance associated with each phone card. Company debits the cardholder's account balance as the cardholder places a call. The cardholder receives a warning tone two minutes before the balance reaches zero. Calls in progress will be terminated when the balance reaches zero.

The cardholder may access the network from anywhere in the United States by dialing a universal "toll free" number, a PIN, and the called telephone number.

Availability

Prepaid Calling Cards are available to residential Customers and business Customers.

Features

(A) Instructions Available in Multiple Languages

Company may make available to the cardholder different toll free access numbers for instructions in English or Spanish, or other languages as appropriate.

(B) Sequential Calling

Sequential Calling allows the cardholder to make several calls without disconnecting from the system after the completion of each call.

Issued: July 31, 2001
